Projects

PercyFlix

Aug 2023 – present

Technologies: Python • JavaScript • NGINX • MySQL • Flask

I am developing PercyFlix (a Netflix clone website), which addresses the need for a user-friendly streaming platform. I am working on the entire project alone, both backend and frontend, to create a seamless, feature-rich experience for viewers.

Aim of this project is just for learning.

Airbnb's clone web

Apr 2023 – Aug 2023 • 4 mos

3 coworkers

Technologies: Flask • MySQL • Rest API • HTML/CSS • JavaScript

We developed an Airbnb clone website that revolutionizes the vacation rental industry, addressing key challenges and enhancing user experiences. My primary role was backend development, ensuring seamless functionality and data management.
